

Cutting-Edge Blockchain, RPA , AI Solution for Modern Businesses

Introduction

Welcome to Adagen Consultancy services a cutting-edge technology company at the forefront of generative AI, Robotic Process Automation & Block Chain Technology. We specialize in developing innovative AI-based products and providing top-tier services that revolutionize how businesses operate and grow.

OUR TEAM

Mamta Bisht

Over a decade exp in IT and
Administration in Different
industries

Satpal

**AI/Blockchain/Platform
Architect**

An alumni of IIT Delhi, With
Over 15 yrs. exp in different
technologies

Anil Singh

AI Architect

Over 14 yrs. exp in
RPA/Automation/AI in
different domains.

Gourav Singh

**Full Stack Data
Engineer**

Nishant Sharma

Full Stack Developer

Ankur Pachauri

**Full Stack Blockchain
Developer**

Mridul Rawat

UI/UX Developer

Our Solution

REVOLUTIONIZING WITH GENERATIVE AI

Generative AI

Our **GenAI Application** deliver a conversational experience that's indistinguishable from human interaction, tailored to understand and respond to user needs with unprecedented accuracy.

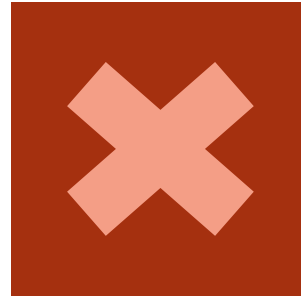

Voice Chatbots

Powered by advanced NLP, our **voice bots** understand and process human speech with remarkable precision, offering users a seamless and intuitive way to interact with your services.

Image Searching & Generating

Utilize cutting-edge AI to transform the way users search for information, allowing them to find what they need through images rather than text queries.

Concept Validation

Transform innovative ideas into feasible blockchain solutions.

Strategy & Roadmap

Craft winning strategies and tailored roadmaps for adoption.

Tokenomics & Economics

Design sustainable token economies for optimal value creation.

Integration & Deployment

Integrate seamlessly with existing systems and ensure smooth deployment.

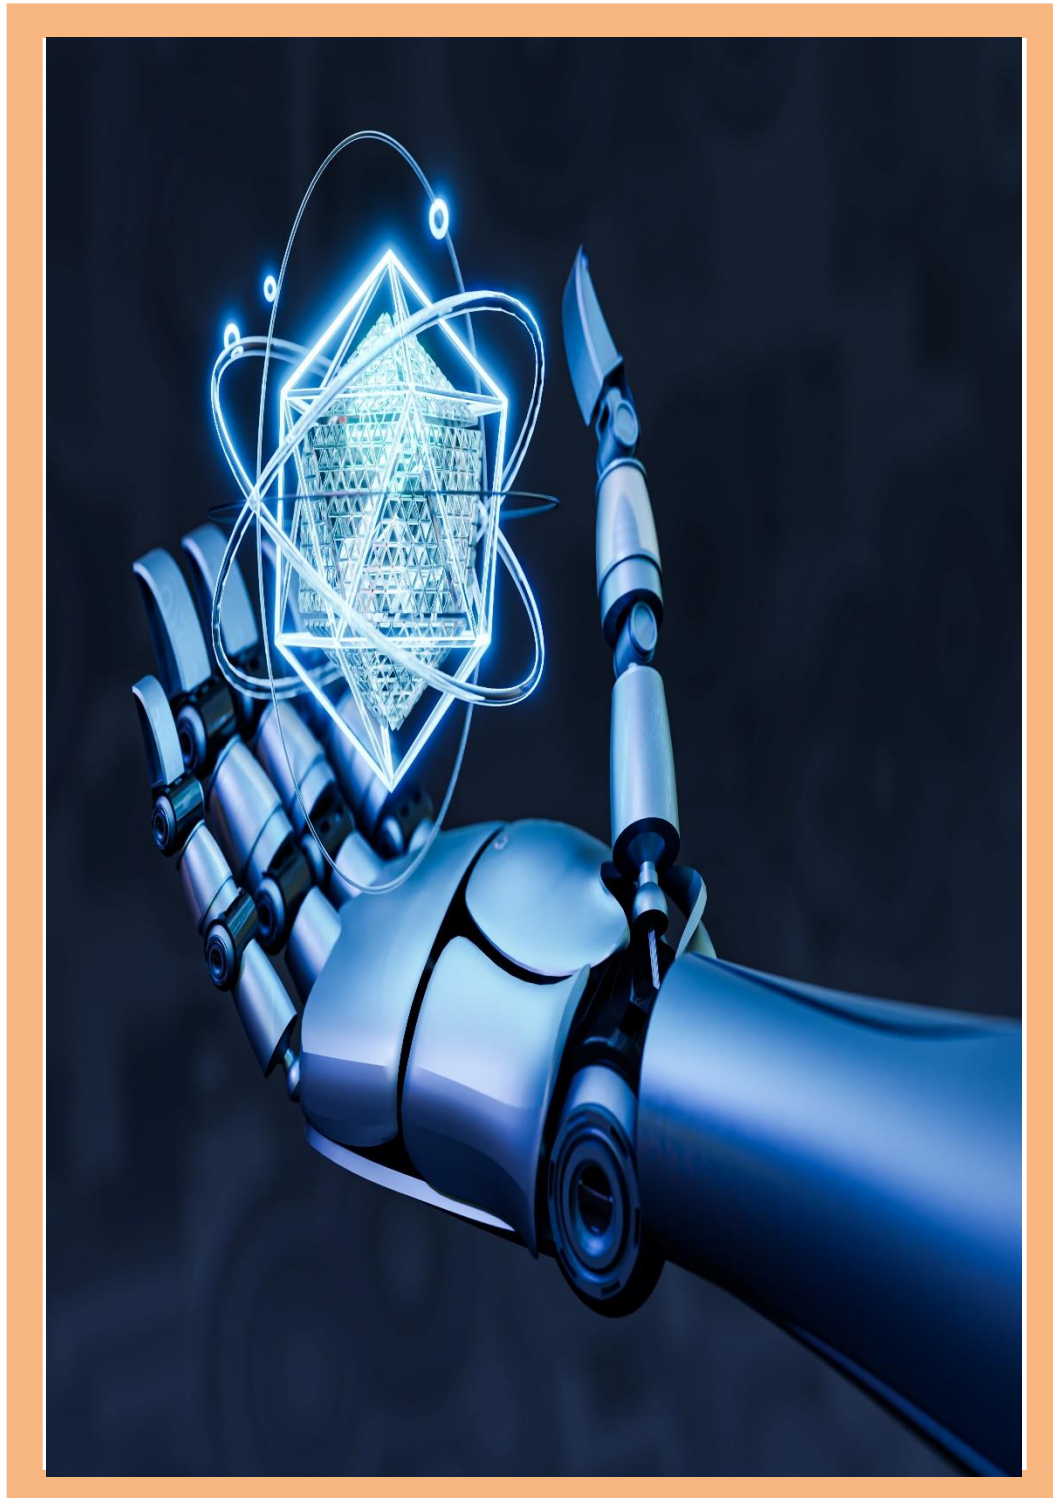

Regulatory Compliance

Navigate complex regulations and mitigate compliance risks.

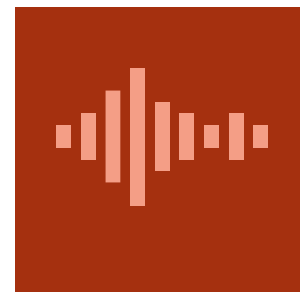

Our Solution

ROBOTIC PROCESS AUTOMATION SERVICES EMPOWER YOUR ORGANIZATION

OCR as Data Extractor

OCR with RPA automates data extraction from documents, integrating machine learning and AI for accuracy, validation, and seamless workflow automation.

Speech Analytics

Speech analytics analyzes recorded calls to enhance communication, offering benefits like operational efficiency, improved customer experiences, QA automation, and call categorization.

Performance Monitoring & Optimization

Utilize cutting-edge AI to transform the way users search for information, allowing them to find what they need through images rather than text queries.

WHY US?

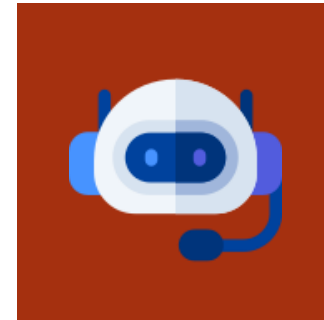

Delivering Unmatched Value with Artificial Intelligence , Robotic Process Automation & Block chain Technology

Innovation At Our Core

Our team is dedicated to pushing the boundaries of what's possible, continuously exploring new applications and improvements in generative AI technology.

Custom AI Solutions

We specialize in tailoring our AI products and services to meet the unique needs of our clients, ensuring they receive the most effective and impactful solutions.

Commitment To Excellence

At Adagen, quality and client satisfaction are our top priorities. We are committed to delivering exceptional results, on time and beyond expectations.

A Future-Forward Approach

We believe in the transformative power of AI and are committed to leading the charge in ethical, sustainable AI development that benefits all.

Our Clients

Contact Us

At Adagen Consultancy Services, we lead the way in advancing modern technologies. Our mission is to "turn data into actionable insights for global businesses." We harness innovation, collaboration, and strategic partnerships to fuel growth and strive for excellence.
